ARTICLE INFORMATION	ABSTRACT
Vol. xx, No. xx Page: Published: KEYWORDS Stunting, Implementasi, Faktor Penghambatan.	This study aims to determine the role of the Selili Village in carrying out its duties, principals and functions as a government in the Selili Village, especially in improving family welfare in accelerating the reduction of stunting in the Selili Village, Samarinda City. This research was conducted in Selili Village, Samarinda City.
CORRESPONDENCE Phone: +6287872506328 E-mail: Filidiantong@gmail.com	This type of research is a qualitative descriptive research. Data collection techniques were carried out by means of field research, structured interviews, documentation and literature. By using the method of observation, interviews, documentation. The data analysis used is an interactive model data analysis developed by Miles, Huberman and Sandala (2014).
	The results of this study indicate that the Implementation of the Policy to Accelerate the Reduction of Stunting in Improving Family Welfare in Selili Village, Samarinda City has not been implemented in accordance with the priority activity policy for accelerating stunting reduction. This means that most of the Selili Village government, posyandu cadres, both health workers, and also the Selili Village community have collaborated with each other in policy priority activities for implementing stunting reduction but this has not been implemented properly. What made it not implemented properly were several inhibiting factors in the Selili Village, namely the absence of a budget related to Reducing Stunting in the Selili Village, the lack of a Stunting Reduction Mobilization Team to socialize to the community, by providing an explanation of what stunting is like and how to prevent it, the lack of officials for data collection to find out which families are indicated to be stunted so that for the data collection process there are no discrepancies in the calculations.
	INTRODUCTION Pertumbuhan penduduk Indonesia yang masih tinggi dan ketidakseimbangan struktur
