| Vol. xx, No. xx Page : Published : KEYWORDS Role, Public Service, Clean Water | Muhammad Dandi, Department of Government Science, Faculty of Social and Political Sciences, Malawarman University Samarinda, The Role of the Village Head in Public Services in the Field of Clean Water in Manunggal Jaya Village, Biatan District, Berau Regency, under the guidance of Dr. Anwar, MM and Dr. Imas Surya, M.Si. This study aims to determine and describe the Role of the Village Head in Public Services in the Clean Water Sector in Manunggal Jaya Village, Biatan District, Berau Regency. This research includes getting good and healthy water quality, getting information about water quality status, implementing water quality management, playing a role in water quality management, and controlling water pollution by statutory provisions. This research was conducted in Manunggal Jaya Village, located in Biatan District, Berau Regency. This type of research is descriptive qualitative. The research was conducted in several stages, including field research using observation, interview and documentation methods and literature research. Furthermore, the data obtained will be analyzed descriptively qualitative. Based on the results of this research conducted in Manunggal Jaya Village, the increase in the need for Clean Water is not accompanied by an increase in the quality and good water sources. The factors that influence the existence of obstacles to the provision of clean water sources are the distance of the village from the sub-district PDAM, low population density makes it difficult to determine the location of making water sources, rocky land contours make it difficult to make water sources. |
