Article Info	ABSTRACT	
Article History: Received Revised Accepted	The subjects of this study were 100 teenagers who did smoking behavior. The research methodology used smoking behavior scale, conformity and permissive parenting style. Those scales arranged with likert model scale and examined the using of doubled regression analysis statistic test with SPSS 24.0 for Windows. The result of this research showed that there was a positive influence and significance between conformity and permissive parenting and smoking behavior with the score $F = 39.422$, $R^2 = 0.448$, and $P = 0.001$. Conformity significance impact on smoking behavior with the score $\beta = 0.312$, T count = 3.386, T table = 1.984, and $P = 0.000$. Permissive parenting significance impact on smoking behavior with the score $\beta = 0.440$, T count = 4.771, T table = 1.984, and $P = 0.000$. The contribution of the influence between of smoking behavior and conformity on permissive parenting in Samarinda was in the amount of 0.448 (44.80 percent).	
Keywords: smoking behavior, conformity, permissive parenting style	ABSTRAK Subjek penelitian ini adalah remaja yang melakukan perilaku merokok sebanyak 100 remaja. Alat ukur dalam penelitian menggunakan skala perilaku merokok, konformitas dan pola asuh permisif. Skala tersebut disusun dengan model likert dan diuji menggunakan analisis regresi berganda. Uji statistik dilakukan bantuan program komputer SPSS versi 24.0 for windows. Hasil dari penelitian ini membuktikan bahwa terdapat pengaruh positif signifikan terhadap konformitas dan pola asuh permisif terhadap perilaku merokok yaitu nilai $F = 39.422$, $R^2 = 0.448$, dan $P = 0.001$. Pada konformitas terdapat pengaruh yang signifikan terhadap perilaku merokok dengan nilai $\beta = 0.312$, T hitung = 3.386, T tabel = 1.984, dan $P = 0.000$. Pola asuh permisif terdapat pengaruh yang signifikan terhadap perilaku merokok dengan nilai $\beta = 0.440$, T hitung = 4.771, T tabel = 1.984, dan $P = 0.000$. Kontribusi pengaruh konformitas dan pola asuh permisif terhadap perilaku merokok pada remaja di Samarinda sebesar 0.448 (44.80 persen).
