UPAYA PEMERINTAH INDONESIA DALAM MENANGANI IMPOR SAMPAH PLASTIK

Muhammad Zeri Supriansyah¹

Abstract: *the research entitled "Indonesian Governments's Efforts in Handling Plastic Wasted Imports". This research conducts a study of the efforts made by the Indonesian government in handling plastic waste imports which surged in 2018. This spike was triggered by China's National Sword Policy, namely the policy to stop importing waste so that waste trade flows had a significant impact on Indonesia. This research uses qualitative methods with descriptive research type. The research uses secondary data obtained using the library research method. These various methods are used to describe the Indonesian government's efforts since the surge in plastic waste imports occurred in 2018. The results of the study show that the Indonesian Government's efforts in handling plastic waste imports are the Implementation of the Basel Convention Ban Amendment through Permendag No. 92 of 2019. With this legal instrument, the government has formed a Waste Import Task Force and Surveyors who are responsible for controlling waste imports in Indonesia. In addition, clear laws are enforced for corporate actors who import waste. The second effort is to maximize the use of domestic waste.*

Pendahuluan

Perdagangan internasional merupakan salah satu isu hubungan internasional yang banyak dibahas ketika berbicara tentang industri dan ekonomi. Salah satu komoditas yang diperdagangkan oleh negara – negara di dunia dan kontroversial hingga saat ini adalah ekspor impor sampah plastik. Pasalnya sampah plastik sangat berbahaya bagi lingkungan jika tidak mendapatkan pengelolaan yang tepat. Perdagangan sampah plastik didominasi oleh pengeksport dari negara-negara industri maju, dengan negara pengimpor didominasi dengan negara-negara berkembang. Alasan negara-negara berkembang melakukan impor sampah plastik karena untuk memenuhi kebutuhan industri daur ulang di dalam negeri. Alasan negara maju melakukan ekspor sampah plastik, karena aturan ketat serta biaya pengolahan yang mahal, terutama jika tergolong
