**ABSTRACT**  
This research was conducted with the aim of understanding the correlation between the level of bullying intensity and the level of self-compassion in junior high school students in the city of Samarinda. This research method is a quantitative method. A total of 100 Samarinda City Middle School students were the subjects of purposive sampling for this research. The Self-Compassion Scale and Bullying Scale were used for data collection. Pearson product-moment correlation method was used for data analysis. Based on the results of the validity test, there are 18 items on the self-compassion scale with a reliability coefficient ( $\alpha$ ) of 0.884, and 21 items on the bullying scale with an  $\alpha$  of 0.914. However, the findings of this study reveal that bullying and self-compassion attitudes are not related in junior high school students. This can be seen from the  $p$  value of 0.884 ( $p < 0.05$ ) and the calculated  $r$  value of 0.024, which is lower than the table  $r$  value of 0.192.

**Keywords:**  
Bullying, Self-Compassion, student

**ABSTRAK**  
Penelitian ini dilakukan dengan tujuan untuk memahami korelasi antara tingkat intensitas bullying dan tingkat self-compassion pada siswa sekolah menengah pertama di kota Samarinda. Metode penelitian ini adalah metode kuantitatif. Sebanyak 100 siswa SMP Kota Samarinda menjadi subjek purposive sampling penelitian ini. Skala Self-Compassion dan Skala Bullying digunakan untuk pengumpulan data. Metode korelasi product-moment Pearson digunakan untuk analisis data. Berdasarkan hasil uji validasi, terdapat 18 item pada skala self-compassion dengan koefisien reliabilitas ( $\alpha$ ) sebesar 0,884, dan 21 item pada skala bullying dengan  $\alpha$  sebesar 0,914. Meskipun demikian, temuan penelitian ini mengungkapkan bahwa bullying dan sikap menyayangi diri sendiri tidak ada hubungannya pada siswa sekolah menengah pertama. Hal ini dilihat dari nilai  $p$  sebesar 0,884 ( $p < 0,05$ ) dan nilai  $r$  terhitung sebesar 0,024, yang lebih rendah dari nilai  $r$  tabel sebesar 0,192.

**Kata Kunci:**  
Bullying, Self-Compassion, siswa
